

SCS-1ZW

Shutter Control Switch

Effortlessly adjust rolling shutters, screens, or shades at the touch of a button with the Shutter Control Switch, SCS-1ZW. Block the sun's harsh rays, privacy and protection for interiors, protect temperature sensitive valuables, and reduce energy consumption, all with a simple button press. The SCS-1ZW allows users to remotely and manually adjust motorized roller shutters to be rolled up/down or stopped with ease.

Quality and safety are the strong points of Climax products, and SCS-1ZW is designed with needs of individuals and lifestyle in mind, a modern and refined design, offering maximum comfort and convenient to users. The battery-operated SCS-1ZW is paired with Climax Z-Wave Roller Shutter Controls, and requires no additional wiring, making it ideal for the expansion of home automation options in new or modern homes where cabling solutions are limited.

Features

- Remotely and manually adjust motorized roller shutters to be rolled up/down or stopped
- No wiring for easy and quick installation
- LED indicator light makes it easy to find in the dark
- Suitable for motorized roller shutters, window curtains, interior/exterior shades, and garage doors
- Compatible with other manufacturers' Z-Wave systems
- Modern, simple and refined design
- Requires Climax Z-Wave Roller Shutter Control series
- Over-The-Air (OTA) firmware update capability
- For indoor use only

SCS-1ZW Shutter Control Switch

Specifications

Communication Protocol	Z-Wave Plus 500 series module
Frequency	868.40 MHz (EU) / 908.40 MHz (US)
